Kill your speed, not your girlfriend

# Keep your Valentine safe - Kill your speed, not your girlfriend.

Did you know that over 1,800 young male drivers and over 1,000 female passengers are killed or seriously injured in road traffic collisions in the UK every year? Male drivers aged 17-24 are three times as likely to be killed or seriously injured as a female driver.

We hope that you'll never be involved in a real crash so come along to one of the reconstruction events below and see what can happen. With all the flashing lights, sirens and blood of a road traffic collision - it will make you think.
