

FOI Request – 20200012

Request:

Which three fixed position speed cameras in your area were responsible for (i) the issuing of the most fixed penalty notices to suspected speeders and (ii) were activated the most time by speeding vehicles in the combined three-year period of 2017, 2018 and 2019?

By this, I mean which three cameras were the busiest across the entire three-year period rather than which three were busiest in each year. Hence, the response should be just three camera sites and no more.

Please provide me with the position of each of the three cameras and the number of FPNs issued as a result of it “catching” suspected speeders in that three-year period as well as the number of activations logged at that site.

NOTE: Please include average speed cameras for this analysis where the cameras have remained in the same position.

Response:

The following Table shows the total Offences detected for the Top three Fixed cameras over the combined three year period between 2017, 2018 and 2019.

Top Three Fixed Cameras and number Offences by Year				
Location	2017	2018	2019	Grand Total
A616T East from 80m past A6102 exit for 2.2km, Barnsley	4005	4082	3802	11889
A61 Penistone Road near Rutland Road, Sheffield (S)	2617	3189	3484	9290
A638 York Road near Piping Lane West, Doncaster (S)	2954	2013	1973	6940
	Grand Total			28119

Please note only records of activations resulting in a Notice of Intended Prosecution being Issued are retained.
