

FOI Request – 20200013

Request:

Dear South Yorkshire Safety Camera Partnership, I have recently received a Notice of intended prosecution where I believe my vehicle was travelling below the stated speed. I would like to make a formal request under the Freedom of Information Act 2000 to see copies of the calibration certificate and maintenance records of the fixed camera used at A616(T), Langsett, Barnsley (EASTBOUND).

Response:

1. The Calibration Certificates for Speed cameras may be viewed on our website at <https://www.safetycamera.org>. Open the tab marked Calibrations, scroll down and click on the tab marked A616 Langsett. Once the Calibration Certificate is open, scroll down the certificate to view Site ref code 625.

2. Maintenance is carried out by the manufacturer and records are held by them.
